Subject: Oil & Gas Roundtable Pre-Brief
Attachments: Final 2019 August EPA O-G Briefing Materials (20190820) - Updated for Roundtable (20191028).docx
Location: Great American West Call-in 720-642-6536 4766535 (RA Pin)
Start: 11/1/2019 3:00:00 PM
End: 11/1/2019 4:00:00 PM
Show Time As: Tentative

Greg would like to be briefed on Friday in preparation for the Oil & Gas Roundtable next week. Please refer to the information, below, from Megan. I just spoke to Megan and let her know that I would send her most recent O-G briefing book (the Table of Contents will give you a quick view of the R8 specific topics covered.) She is waiting for some updates from OECA that should not impact our preparation for Greg.

For Greg's briefing on Friday please look at the goals for the meeting, the agenda and the briefing book.

Please try to keep this simple. No need to create material. For example, the agenda includes a topic on Optionality and Produced Water. The briefing book has a paper on the National Produced Water Study. When we go through the agenda on Friday let's reinforce the importance of continued study on beneficial reuse of produced water. We could also mention the work being done with ORD.

On air quality and methane he has been briefed extensively on the issues in R8. No need to create more briefing papers. The briefing book includes the U&O story. Point to that and verbally provide any other information you think will be helpful based on the goals for the meeting.

Greg will have an internal briefing on Thursday for EPA participants and may have some follow up questions for us.
